

# WOMEN OF MATHEMATICS THROUGHOUT EUROPE

## A GALLERY OF PORTRAITS

THIRTEEN PORTRAITS  
OFFERING AN UNUSUAL INSIGHT  
INTO MATHEMATICS

The Cambridge Centre for Mathematical Sciences, the Isaac Newton Institute and the Betty and Gordon Moore library are proud to take part in the 'Women of Mathematics throughout Europe' portrait exhibition.

The exhibition opens TUESDAY 25TH APRIL at 3.30PM, featuring talks by Cambridge mathematicians Professor Anne Davis, Dr Holly Krieger, and Dr Carola-Bibiane Schönlieb. Following the talks will be a panel discussion on issues affecting women in mathematics and a drinks reception, with a chance to network whilst viewing the exhibition. The talks will be aimed at a general public audience, and the event is free and open to all.

The 'Women in Mathematics throughout Europe' exhibition is supplemented with portraits and interviews featuring local female mathematicians from the University of Cambridge Mathematics Faculty. The portraits will be on display in the Isaac Newton Institute and the CMS from Monday 24th April, and in the Betty and Gordon Moore Library following the exhibition.
